

Terms and Conditions

This page consolidates the documents that establish the conditions applicable to the international logistics services coordinated by **XP Shipping Logística Completa Ltda.**

Services coordinated by XP Shipping may involve multiple modes of transportation and the participation of various partners, including but not limited to ocean carriers, airlines, airports, port and airport terminals, international agents, inland carriers and governmental authorities.

Operational conditions may vary depending on the contracted service, routing, country of origin and/or destination, and the commercial terms agreed upon.

General Terms and Conditions – GTC 2026

The **General Terms and Conditions (GTC 2026)** establish the general framework applicable to all services provided by XP Shipping, regardless of the transport mode.

Service-Specific Terms and Conditions

Each service offered by XP Shipping is subject to specific **Terms and Conditions**, which define the operational, documentary and commercial provisions applicable according to the nature of the service.

The relevant document must be consulted according to the contracted service:

Demurrage, Detention, Storage and Use of Equipment

Charges related to container, cargo or equipment dwell time — including demurrage, detention, storage and other operational costs — may involve rules established by carriers, terminals, airports, transport operators or competent authorities.

Applicable conditions, including free time and charges, vary according to the specific operation and are detailed in the **Terms and Conditions applicable to each service.**

Important Notice

The conditions applicable to operations coordinated by XP Shipping are defined by the **General Terms and Conditions (GTC 2026)**, the **Terms and Conditions specific to each service**, and the **commercial and operational documents issued in connection with each shipment.**
